

**“TOP 40” DRILL INTERSECTIONS**

| #Hole ID  | Grade        | Intersection |
|-----------|--------------|--------------|
| OKD – 01  | 15.8 g/t Au  | over 6.0 m   |
| OKD – 03  | 13.8 g/t Au  | over 12.0 m  |
| OKD – 05  | 9.1 g/t Au   | over 8.2 m   |
| OKD – 07  | 30.8 g/t Au  | over 1.7 m   |
| OKD – 07  | 15.8 g/t Au  | over 2.7 m   |
| OKD – 17  | 12.9 g/t Au  | over 4.1 m   |
| OKD – 20  | 7.2 g/t Au   | over 11.7 m  |
| OKD – 23  | 14.8 g/t Au  | over 2.8 m   |
| OKD – 24  | 116.6 g/t Au | over 2.4 m   |
| OKD – 27  | 19.5 g/t Au  | over 4.0 m   |
| OKD – 28  | 30.8 g/t Au  | over 2.2 m   |
| OKD – 29  | 49.0 g/t Au  | over 2.7 m   |
| OKD – 30  | 10.8 g/t Au  | over 4.0 m   |
| OKD – 35  | 10.6 g/t Au  | over 4.0 m   |
| OKD – 47  | 9.5 g/t Au   | over 4.4 m   |
| OKD – 54  | 10.5 g/t Au  | over 6.7 m   |
| OKD – 65  | 19.0 g/t Au  | over 5.0 m   |
| OKD – 65  | 12.9 g/t Au  | over 6.5 m   |
| OKD – 66  | 15.3 g/t Au  | over 6.5 m   |
| OKD – 67  | 9.2 g/t Au   | over 11.3 m  |
| OKD – 72  | 10.0 g/t Au  | over 3.2 m   |
| OKD – 73  | 19.1 g/t Au  | over 6.8 m   |
| OKD – 74  | 32.9 g/t Au  | over 8.6 m   |
| OKD – 75  | 177.0 g/t Au | over 0.4 m   |
| OKD – 77  | 335.4 g/t Au | over 1.9 m   |
| OKD – 81  | 8.8 g/t Au   | over 6.2 m   |
| OKD – 84  | 23.6 g/t Au  | over 3.9 m   |
| OKD – 85  | 9.1 g/t Au   | over 6.6 m   |
| OKD – 85  | 24.4 g/t Au  | over 5.0 m   |
| OKD – 89  | 16.4 g/t Au  | over 6.3 m   |
| OKD – 89  | 33.4 g/t Au  | over 2.0 m   |
| OKD – 90  | 31.5 g/t Au  | over 4.5 m   |
| OKD – 92  | 8.6 g/t Au   | over 4.1 m   |
| OKD – 95  | 7.8 g/t Au   | over 5.4 m   |
| OKD – 95  | 8.4 g/t Au   | over 16.0 m  |
| OKD – 96  | 14.2 g/t Au  | over 8.3 m   |
| OKD – 97  | 18.1 g/t Au  | over 5.9 m   |
| OKD – 103 | 8.2 g/t Au   | over 14.3 m  |
| OKD – 106 | 8.5 g/t Au   | over 15.5 m  |
| OKD – 110 | 74.8 g/t Au  | over 6.4 m   |

The intercepts reported are down-hole widths, quoted lengths are not true width. Weighted average grades are calculated based on un-capped gold assays, as insufficient drilling has been completed to determine capping limits for gold assays.
