<i>Incl.</i>	<i>85.9</i>	<i>91.8</i>	<i>5.9</i>	<i>7.2</i>

Intervals in this press release have been calculated using a grade cut-off of 0.3 g/t Au and up to 10 metres maximum length of internal waste. Gold grades are uncapped. Mineralized intersection lengths are not necessarily true widths. The intercepts reported are down-hole widths. Insufficient drilling has been undertaken to determine true widths at this time.
